Dear Friends in Christ ,

March 10, 2018

This morning we said goodbye to our latest group sponsored by South Texas Children's Home Ministries. This group of twenty nine medical professionals: Two medical doctors and their staff, two dentists and their staff, 2 physical therapists, an ophthalmologist and his helpers. All eager and ready to practice their professions in helping the people of the Dominican Republic.

At seven a.m. they all gathered in a large circle for devotions and then breakfast at

7:30. One morning they heard the story of Pastor Rudy's life and another morning they wanted me to share my story of how this ministry all began.

Besides the group of 29 individuals we were joined by a crew of translators and STCH staff so that we were feeding from our kitchen about 55 people.

The group was divided up.

The medical teach

including the therapists headed out in a bus to different schools and sites while the dental team, and the ophthalmologist remained here on site. During the week they were able to see a total of nearly 1000 patients. At our final banquet in their honor Friday night we heard their testimonies of how satisfied they were with their week of service.

I made five apple pies for them along with a huge pineapple cake made by my kitchen staff.

Thank you for your faithfulness in prayer and with your giving. May God bless

you,  
*Dorretta*  
Yours in Christ,
